

ThinkTank™ Certified Devices and Platforms

THINKTANK VERSION 6.0

OVERVIEW

This document provides a list of desktops/laptops and tablets, as well as their respective operating systems and browsers that have been tested and certified by ThinkTank, Inc. for use in participating in ThinkTank Sessions. These instances are listed in the "Certified" column.

Important Reminder: Leaders should use a browser on a full size screen (on a laptop or desktop computer only, not on a tablet) to design and lead Sessions. Only Thinkers should use iPads or other Windows and Android tablets (or desktop or laptop computers) to participate in Sessions. iPads and other tablets have less processing power and network capacity than laptop or desktop computers.

ThinkTank features and functionality may be available on additional tablets and platforms; however, they have not been certified by ThinkTank, Inc. These instances are listed in the "Supported" column.

DESKTOPS/LAPTOPS (Leaders and Thinkers)	CERTIFIED ¹	SUPPORTED ²
Windows OS	OS: Windows 7, 8, 8.1, 10 Browsers: Internet Explorer 9-11 ³ , Chrome, Microsoft Edge	Windows XP Windows Vista

	OS: Jelly Bean 4.2, 4.3 KitKat 4.4 - 4.4.4 Lollipop 5.0 - 5.1.1 Browser: Chrome	OS: Marshmallow 6.0

¹ Testing has been conducted by ThinkTank, Inc. using devices, operating systems, and browsers listed as certified.

² Testing has not been conducted by ThinkTank, Inc. using devices listed as supported, but based on information provided by the device manufacturer, devices should behave in the same manner as devices listed as certified.

³ Mobile devices and platforms listed in these tables should only be used to participate in Sessions using ThinkTank Smartphone Client, which enables convenient ThinkTank Session access using personal hand-held devices. Currently, only Thinker functionality is supported in ThinkTank Smartphone Client; Leader functionality is not available. In addition, only limited Crowdsourcing, Custom Assessment, PictureThis!, and Presentation activity functionality is currently supported in ThinkTank Smartphone Client.
